

Souca Thomas

Cluj-Napoca, Cluj, Romania • thomassouca@gmail.com • +40743433325

Education

BBU, Babeş-Bolyai University

Computer Science, Full Time.

2025 - Ongoing 2028

Báthory István High School

Cluj-Napoca

2021 - 2025

Experience

Krumb - Personal Project

Founder & Developer

2025 – Present

- Building a social cooking app where users share short recipe videos, and the app automatically generates **step-by-step instructions** using AI.
- Designed the full product experience using **React Native (Expo)** and **Node.js**, with a **NestJS** backend and **Prisma** for database management.
- Implemented user authentication, video upload pipeline, and AI-based step extraction.
- Reached **200+ early user sign-ups** prior to launch.
- Preparing for public beta release in late 2025

Wavelink

Founding Engineer

Remote

Apr 2025 – Present

- Built core features for the company's MVP, contributing directly to early product-market fit.
- Developed and maintained the full-stack application using **ReactJS** and **NestJS** (migrated backend from Go to NestJS).
- Designed and implemented a new feature that generated **\$1K USD MRR**, significantly improving revenue growth.
- Collaborated with product and design teams to refine user experience and improve mobile performance.
- Currently leading a major upgrade that will power **~30% of the app's core functionality**.
- Improved system performance and reliability through efficient API design and front-end optimizations.

RentE
Web Developer

Cluj, Cluj-Napoca
Jan 2024 – Aug 2024

- Built responsive user interfaces using **Angular**. Gained experience in frontend and backend development.
- Developed responsive web pages using **Angular**
- Created interactive UI components with **Angular Material**
- Integrated RESTful APIs for data retrieval and manipulation
- Learned about responsive design principles and implemented them in projects
- Learned about deployment processes and tools for web applications

Skills & Interests

Technical: TypeScript, JavaScript, C++, C#, C

Frameworks & Tools: React, React Native (Expo), NestJS, Node.js, Angular, Prisma, REST APIs

Databases: PostgreSQL, SQLite, MongoDB, Convex,

Other: Git, Docker, Linux, REST APIs, WebSockets, Real-time Systems, CI/CD

Language: Romanian - C2, Hungarian - C2, English - C1, German - B1
